

Please Note:
 Our website now has the ability to download extra stationery if required e.g. Wool classer speci, shed books, tally books & vendor declaration forms.

January Report

The new year is upon us and fortuitously prices have been quite favourable over all three weeks. Most of the sustained improvement has occurred in the fine/superfine end of the market and only this week the medium and broader types enjoyed a couple of good days. Still like pre-Xmas the Chinese market has been the dominant force and only this week we have seen more support from some European businesses. Quantities have been very reasonable with only the first week back, predictably a large offering coming off a three-week break. All room 2 wools including pieces, bellies, lambs, lks, crt's and stain types have gained momentum as the weeks have passed.

Since the 1st week of January over 4,000 bales have also traded on the wool trade/auctions plus platform which has provided some excellent results covering all types. Over the next few weeks, the superfine wools will appear into the system in both Sydney (the old Newcastle) and Melbourne. The Crossbred side of the wool market has shown some small improvements over recent weeks, with the only exceptions being the composite types which have basically treaded water. The extent of Crossbreds on offer was highlighted in Sale Week 29 which contained 25% of the national offering.
